

## FULL CAMPAIGN LAUNCH

---

Take advantage of all of the materials in the Make It OK online toolkit by following this day-by-day plan, or decide how and when you want to share the items with your group – the tools were designed to be flexible.

### Day 1

**1.** Send the following message to your group via email, intranet, or electronic bulletin board:

Make It OK is a community campaign to reduce stigma by increasing understanding and creating caring conversations about mental illnesses. By stopping the stigma, we can help our family, friends and colleagues, who live with a mental illness to feel supported and get the treatment they deserve.

**XYZ** wants to join this effort. That's why, as part of our upcoming annual Wellness **(Week/Month)**, we're launching Make It OK at **XYZ**. We believe that combating the stigma of mental illnesses will help **XYZ** become a more caring and supportive organization, and create positive change in our community at large.

Mental illnesses are common. In fact, nearly one in five Americans will experience some kind of mental illness in their lifetime. To put this into perspective, one in 10 people have diabetes. Mental illnesses are treatable health conditions, just like diabetes or cancer, but stigma keeps people from getting the support and treatment they deserve. This impacts not only those with mental illnesses, but their friends and loved ones, too. The sooner people get treatment, the greater their chances of recovery. The simple act of talking more openly about mental illnesses is key to stopping the stigma.

#### **LET'S MAKE IT OK TOGETHER**

Together we will learn more about Make It OK, mental illnesses and stigma, misconceptions, its impact on our loved ones and colleagues, and what we can all do to help Make It OK.

**In the next (week/month) you can expect to see the following throughout our organization:**

- Colorful flyers
- Table tents
